To Whom It May Concern:

College Works Painting has been one of the best experiences year to date. I have been involved in a lot of programs and this experience I will never forget. When I first started I was really shocked College Works wanted to invest their time to help me grow as a person. They have helped me realize that I am worth it. My favorite part about College Works is the people you work with and the relationships you build. I must say I have made a lot of friends and will work with them in my future. The success with college works is the challenges you over come. Before this experience, I wouldn't have known what I was capable of, and now I know exactly the obstacles I can overcome and how hard of worker I am, and how valuable my skills are. I am thanking College Works for being patient, helping me strive towards my goals, and holding me accountable. I have learned a lot and can never thank my DM, VP, and other interns enough. If I were to go back in time and be at the interview process to where I decided if I really wanted to do this internship or not, and I knew what I getting myself into, I would totally, no doubt, do this experience again. My advice to new interns is to give the internship your all because it will be over as soon as we know it. I do not regret anything. I fully am thankful for their leadership and believing in me to run my own business. College Works is a great program for college students to get involved in and would recommend it to anyone.

Sincerely,

Brooke Dimond
