

To whom it may concern,

As a branch manager for College Works Painting I gained knowledge that could not have been gained in any other way. I am sure the things I learned during this internship will serve me well throughout the rest of my life.

When I started with College works painting I was far more interested in the experience that I was told about rather than the money. Now that I have finished I know that there are things I could have done for more money but not the same caliber of experience.

This internship has honestly been one of the hared things I have done in my life. I was challenged everyday to be determined and self-motivated to achieve goals I have set for myself.
