

Dear Jeff Lien and [Brian Moaddeli](#),

Coming into the internship, I was excited to build my resume and develop professional skills; however, I did not realize the actual experience I would gain. At 20 years old, I built and ran a \$65,000 business in six months; something I would have never thought was possible. My success and positive experience is largely due to Jeff Lien, and Brian Moaddeli. From the initial calls to the final house, Jeff was there motivating and guiding me along the way. He mentored as I developed professional communication skills, time management, and leadership; I knew I could count on him if I ever needed anything.

Throughout the process, I built what was expected and much more. I did not know College Works' company culture was not only an environment for learning but for an opportunity for networking. I have met and built the best relationships with other college students as well as many executives. Brian Moaddeli, Derek Jorgensen, and Jarric Ramos created an impressive balance of work and leisure.

Although the internship was extremely hard work, I am glad I completed it. It was a test of my perseverance and integrity; and I can now confidently say I am ready for any challenge that may arise in my future.

Thank you to Jeff Lien, Jarric Ramos, Derek Jorgensen, and [Brian Moaddeli](#) for the once in a lifetime experience.

Kayleen Feeney

Student, San Francisco State University
