For: Tom Vampola, [Brian Moaddeli](#) and Tiffany Lin

My experience in College Works Painting was far from easy. I was a freshman when I joined onto this program and I knew it was the right thing for me to do, but I wasn't necessarily ready for the challenges. Tiffany Lin and Brian Moaddeli hired me knowing that I had not nearly enough life experience to take on a position such as this, however I rose to the challenge. I received a lot of support from my Regional Consultant Tom Vampola, even when I wasn't looking for it. From the first training day to the last day of my summer I experienced so much personal growth. I developed and perfected my professional communication skills, my organizational skills and my leadership. I was one of the youngest in my intern year and with the support from Tom Vampola and [Brian Moaddeli](#) I ended up running a \$100,000 business and number one of the division as a whole. Overall the experience I had with College Works Painting is the most beneficial and rewarding experience that I could have ever done. At 19 I already have developed skills that most 30 year olds are still trying to figure out. This program along with the support of my Regional Consultant has given me the tools to be successful in my future endeavors and put me ahead of the learning curve when it comes to being a well paying career straight of graduation college.

Sincerely,

Vivian Teran
